EDUCATION

Ryerson University

Bachelor's of Science in Computer Science, minor in Cybersecurity

Toronto, ON

September 2022 - April 2026

PROJECTS

Py-Paint | *Python, Tkinter*

February - March 2023

- Designed a graphical user interface (GUI)
- Implemented the ability to select an image to be displayed on the screen
- Allowed users to draw on the image or on a blank canvas
- Change colour and erase drawings, increase brush size
- Developed using object-oriented programming principles

Health Policy Student Association | *HTML/CSS, Javascript, Flask*

February - March 2023

- Worked collaboratively with another developer to build a website for the Health Policy Student Association at McMaster University.
- Employed HTML/CSS and JavaScript to create an engaging, interactive user interface.
- Developed and implemented the website's back-end using Flask.
- Ensured the website's layout was responsive and optimized for all devices.

League of Legends Webscraper | *Python, BeautifulSoup, Matplotlib*

January 2022

- Scrape player info from stat websites such as OP.GG.
- Win rate and rank are displayed, and champion mastery is shown using a pie graph (Matplotlib).

SKILLS

Programming languages: Python, HTML/CSS, JavaScript, Java

Frameworks/Libraries: React, Tkinter, BeautifulSoup, jQuery, Matplotlib, Flask

Version control: Git, GitHub

Soft Skills: Communication, Teamwork, Leadership, Problem Solving

VOLUNTEER EXPERIENCE

Summer Camp Instructor

July 2019

- Managed groups of about 20 kids every day for 2 weeks.
- Responsible for creating fun yet meaningful games that taught the kids more about their faith.

Hymns Class Teacher

March 2020 - March 2022

- Taught grades 3 to 6.
- Lessons were done over zoom. Found ways to keep the class engaged despite challenges.

Soup Kitchen Volunteering

September 2018 - December 2019

- Spent two Saturdays every month serving meals to and conversing with the less fortunate people in my community.
